Frequencies of Brilliance

Heal the Pleiadian way

*A discussion with Frequencies of Brilliance Practitioner
Lily Weinstock Kassirer*

By Jennifer Clark

I have been always interested in new forms of energy work, especially those which come from off the planet. Since well-respected healer, Tana Saler brought Frequencies of Brilliance (FOB) to Ottawa some years ago, I have been intuitively guided to explore more about this cosmic healing modality. Frequencies of Brilliance come from the planet Pleiades. In 1987, a rather unsuspecting young mother named Christine Day, who had a sick child, was selected by the healing Pleiadians to channel this new form of energy work to the planet Earth. However, it was only in 1999 that Christine was allowed to bring this powerful cosmic healing to the world. At that time she was told that we, as a human race, were ready for this new information. As such, a grace period was being opened up for humanity on this earth plane. Humanity was ready to integrate the frequencies of this work into themselves, lifting the veils of illusion and opening to a more complete aspect of our divine selves.

Due to its cosmic origin, FOB is a fourth/fifth dimensional work. The process is that of activating doorways by lightly touching the body or working just above the body. Christine Day was shown doorways or maps, found in patterns on the front and back of the body. Each doorway holds the highest aspect of the human being and is complete in itself. This means that there is a perfect potential to be accessed and activated throughout the doorways in the body. A recollection of yourself, a birthing of remembrance of your highest potential which begins to transmit and awaken through your cells, so that you begin to consciously remember and experience the unlimited self. It does not work with the ego mind, rather, through the entire nervous system and brain, and the spiral in the cells and spinal fluid. New areas of the brain begin to function for the first time. You begin to recollect and connect to gifts of YOURSELF.

Physical and emotional healing takes place within the physical and emotional bodies with this process because as you access the divine aspects of you, you as your own healer begin to automatically transform the physical and emotional body. The FOB process opens you up to receiving birthing frequencies of Remembrance that activate all cells throughout the body, awakening new areas of the brain, completing DNA re-patterning, and emerging into a new truth and frequency of reality. This process changes the

frequencies of the body and prepares us for the transition to higher dimensions of consciousness.

The work is done on the physical body or just above the body, through a series of doorways that hold the purest frequencies of remembrance of Truth. This process allows us to bypass the illusion of the third dimensional reality, allowing us to directly experience the True Light that is here for us to live and be. During this process, you will be encouraged to move and expand as completely as possible into these experiences of Self. Awakening occurs on a physical and spiritual level, within your body and within your world. It is said that Frequencies of Brilliance, “creates and activates birthing frequencies of divine truth.”

There are four FOB practitioners in Ottawa (www.frequenciesofbrilliance.com) but I decided to speak with Lily Weinstock Kassirer who is a Stage V FOB Practitioner, the highest FOB certification currently offered by Christine Day. Lily Weinstock Kassirer is currently the only Stage V FOB Practitioner in Canada. A Stage V practitioner is a dedicated FOB healing practitioner who, among many other things, can perform etheric organ replacement, offering the sick and dis-eased a unique alternative to surgery. Psychic surgery is not new to the planet. Worldwide it is a popular choice in places like Brazil, the Philippines and India. Most books regarding ancient mystery schools in Egypt, Aztec and Mayan cultures also describe High Priests and Priestesses able to perform etheric surgery and organ replacements. We, as a community, are blessed to have Lily Weinstock Kassirer sharing her expert knowledge with us. Lily is an immediately likeable person and her obvious dedication and commitment to FOB is apparent in her professionalism and grace. Her healing space in the Maclaren Centre is very tranquil and you sense a higher vibration or frequency when you enter her space. I received my first session recently. I felt very grounded and present in my body. Lily works the “maps” or doorways above my body to open my “perfect potential.” Normally, at least two or more sessions are suggested. Lily will intuitively ask how many further sessions are required for a client depending upon what a clients wishes to achieve and what intentions they have. Again, this is left up to the client to decide what is right for them. I personally enjoyed it so much that I will be going back for another session in a few weeks.

Lily believes in her training and FOB’s ability to support a unique healing experience. So much so, that she is very excited to work with people who have serious health issues, particularly organ related, that are currently being overseen by a health professional. She wishes to use her new healing knowledge to offer people in dis-ease a choice and their bodies a chance to heal divinely and naturally. She is eager to work with the allopathic community to verify and track results and see how this etheric healing can work. She is currently working with a cardiologist at the Heart Institute who is open to this kind of work. I highly recommend anyone in health crisis to consider FOB and to contact Lily to discuss their personal situation.

While FOB has been shown to be dramatically supportive in many conditions, a FOB practitioner is NOT qualified to diagnose an illness, prognosis a cure or prescribe any type of medication. FOB is oriented to reaching and strengthening ourselves to achieve

our Divine health. A FOB practitioner is not a practitioner of medicine and is not regulated by any government body. Lily is passionate about her work and works with a high level of integrity and truth about how she may serve her clientele.

For those of you interested in learning FOB, Christine Day will be in Toronto teaching the Frequencies of Brilliance 12- Day Certification Program on February 1st to the 13th. For more information, contact Lily at 613-859-3205 or email LILYandFOB@magma.ca For more information about Frequencies of Brilliance, visit
